SUMMARY

Computer Engineering student (3rd Year) at St. Vincent Pallotti College of Engineering & Technology, Nagpur. Proficient in Python, JavaScript, Java, SQL, and full-stack web development (React.js, Node.js, Next.js). Hands-on experience in Data Science (NumPy, Pandas, Matplotlib), AI/ML, REST APIs, and workflow automation (n8n, LangChain). Completed 4+ internships and built AI-powered, full-stack, and automation projects. Seeking software development / data science opportunities to deliver real-world impact.

TECHNICAL SKILLS

Languages	Python, C, JavaScript, SQL, PHP, Java
Web Development	HTML, CSS, React.js, Node.js, React Native (Learning)
Data Science	NumPy, Pandas, Matplotlib Currently Learning: Seaborn, Scikit-learn
Database	MySQL, PostgreSQL, Firebase, Supabase
Tools & Platforms	Git, GitHub, VS Code, Power BI, n8n, Canva, Tinkercad

EXPERIENCE

Power BI Intern — CodeAlpha (Virtual) - Worked on data visualization dashboards using Microsoft Power BI. - Created interactive reports for business data analysis.	2024
Web Development Intern — SkillCraft Technology (Virtual) - Developed front-end components using HTML, CSS, and JavaScript. - Built responsive web pages and worked on mini projects during internship.	2024
Web Development Intern — CodSoft (Virtual) - Completed assigned web development tasks involving UI design and JS functionality. - Delivered project submissions within deadline.	2024
Graphics Design Intern — CodeAlpha (Virtual) - Completed a 1-month virtual internship in Graphics Design under CodeAlpha. - Worked on visual design tasks with dedication; recognized by MSME-registered organization.	Nov 2025

PROJECTS

ORBIS — AI-Powered Career & Financial Intelligence Platform - Built an AI-driven platform helping students choose between Abroad, Government, and Private career paths with data-backed ROI modeling. - Implemented Admission Probability Score, Visa Success Estimate, Loan Risk Simulation, and Skill Gap Analysis modules. - Integrated gamified dashboard with XP system, emotional analytics, and a Neural AI Avatar using OpenAI and D-ID Agents.	<i>Tech: Next.js, React, Python, PostgreSQL, OpenAI API</i>
Life.OS — Emotional Memory Operating System - Designed a futuristic personal memory vault with emotional analytics — Happiness Ratio, Growth Momentum, and Stability Index. - Built cinematic Memory Replay Mode (Spotify Wrapped-style) with life chapter organization (School, College, Career, Transformation). - Implemented dark cosmic glassmorphism UI with smooth Framer Motion animations and Private Vault secure archive mode.	<i>Tech: Next.js 14, TypeScript, Tailwind CSS, Framer Motion</i>
HMS — Hospital Management System - Full-stack hospital management system with role-based authentication (Admin, Doctor, Patient) using NextAuth credentials provider. - Modules include Patient Records, Doctor Directory, Appointment Booking, Bed Management, Blood Bank, and Lab tracking. - Used Prisma ORM with PostgreSQL for structured relational schema; deployed secure Server Actions for database communication.	<i>Tech: Next.js 15, Prisma, PostgreSQL, NextAuth.js, Tailwind CSS</i>
Telegram Personal AI Assistant	<i>Tech: n8n, OpenAI GPT-4.1, LangChain, Google Sheets API, Google Tasks API</i>

- Built a Telegram bot with AI agent supporting text and voice input with OpenAI Whisper voice-to-text transcription.
- Implemented LangChain memory buffer for per-chat context retention (7-message window) scoped by Telegram chat ID.
- Integrated Google Sheets and Google Tasks as live AI tools for dynamic data read/write and task management.

FlexHire — Rural Job & Skill Platform

Tech: React.js, Node.js, Firebase

- Platform connecting skilled and unskilled workers with short/long-term job opportunities in rural areas.
- Features skill-based hiring, performance certificates, and AI-assisted job matching.

EDUCATION

B.Tech in Computer Engineering (3rd Year) CGPA: 7.89	2026 – Present
<i>St. Vincent Pallotti College of Engineering & Technology, Nagpur</i>	
12th – HSC (State Board) Grade: B+ (First Class)	2024
<i>Model Junior College Karanja, Maharashtra</i>	
10th – SSC (State Board) Grade: A+ (Distinction)	2022
<i>Model High School Karanja, Maharashtra</i>	

CERTIFICATIONS

- Kaggle: Python Course — Certificate of Completion (Oct 2025)
- Google Cloud / Simplilearn: Introduction to Gemini for Google Workspace (Oct 2025)
- MathWorks: Machine Learning Onramp — 100% Completion (Apr 2025)
- MathWorks: Solving Ordinary Differential Equations with MATLAB — 100% Completion (Apr 2025)
- CodeAlpha: Graphics Design Virtual Internship (Nov 2025)
- NPTEL: Enhancing Soft Skills & Personality
- NPTEL: Basic Linear Algebra
- HP: Presentation Skills Certificate
- Unstop: Participation Certificate
- CodeTantra: Object Oriented Programming — SVP CET (May 2026)
- CodeTantra: Database Management Systems — SVP CET (May 2026)

WORKSHOPS & TRAINING

- Firebase Development Workshop — Real-time database, authentication, and cloud functions
- IoT (Internet of Things) Workshop — Sensors, embedded systems, and connected device protocols
- Supabase Workshop — Open-source backend, PostgreSQL database, and REST API integration

ACHIEVEMENTS & PARTICIPATION

- **30+ Hackathon Participations** — Actively participated in national and college-level hackathons; collected 30+ participation certificates across various tech events and competitions.
- **Smart India Hackathon (SIH)** — Participated in national-level government hackathon organized by Ministry of Education.
- **Bharatiya Antariksh Hackathon 2026** (ISRO x Hack2Skill) — Participated in national space-tech hackathon with 15 problem statements by ISRO.
